

**Project Management**

Status and Workflow Management

Versioning

Multi User

Client Server

Refactoring (Notifaction) Mechanism

Administration &amp; Roles Management

Trace Graph &amp; Matrix

Modular Architecture

**FMEA**

VDA/AIAG 6 Steps Coverage

Task Mangement

Multiple hierarchical Object lists

Project specific object list

Drag &amp; Drop re-use between FMEA projects

Multiple traceability support functions

Form Sheets (VDA, AIAG or individual)

RPN Catalogs

Statistics Support (Pareto, RMR, Matrix Analysis, Difference Analysis)

Supporting of Operation Status (construction, operation, service)

Specific Safety Functionalities with tracing of safety level

Decomposition ASIL/SIL, AGPL, PL

PDF Export Reports and Statistics

Ishikawa Diagram

### **Integrations**

CAD

ReqIF/RIF (DOORS)

HTML

Excel

Bidirectional MSR/XML FMEA

Bidirectional UML/SysML

Word

Bidirectional SOX FTA

Bidirectional SOX FMEDA

Bidirectional SOX Requirements

**Usability Support**

Zoom

Multi Monitoring

Failure Net via Drag &amp; Drop

Graphical FMEA

Short Cuts

Failure Net via Drag &amp; Drop
